SUBJECT: Touch-Screen Voting Machines

Sean Vallint *[phonetic]*, Anchor:

New voting systems are on the way for St. Louis County voters starting with the August election. The new touch screen and optical scan voting systems will bring the county voters the latest technology. County Election Board chairman John Diehl says the system is...

John Diehl, Chairman, County Election Board:

...one, easy to use, two, fully accessible, three, extremely secure and four, built on the very latest in voting technology.

Vallint:

Voters can learn more about the new voting system through the county website.
